Water

INSTRUCTIONS:

Plant a small tree, bush, or local flower from seed.
Bless the soil where it is planted and bless the water you use on it.
Allow the plant to receive full moonlight when the moon is full.
When the plant is strong enough, take it to a place where it is native and will not disrupt the ecosystem. Do not plant herbs as they can be invasive.
As you plant it, say: "Gentle goddess, mighty earth take this offering of mine
Blessings I shower upon your earth And heal you in the fullness of time."
